Experience

Mathematics Teacher | Get Ready Tutoring Center Malang

September 2025 – December 2025

- Assisted students with intensive non-academic activities in catching up with academic materials.
- Developed adaptive and structured learning methods to improve students' academic performance.
- Successfully improved a student's grade from C to B+ through consistent tutoring and regular evaluation.

IT Intern | PLN Nusantara Power UP Brantas

March 2025 – June 2025

- Supported the operation of the server house responsible for provincial-level power plant systems, including server monitoring.
- Installed and configured network devices such as switches and hubs to maintain stable system connectivity.
- Assisted in basic network administration and infrastructure troubleshooting in an industrial IT environment.

Robotic Delegate | 2nd Global Project Based Learning UiTM Penang, Malaysia

August 2024 – September 2024

- Collaborated in an international program with team members from Malaysia, Japan, and Indonesia.
- Utilized National Instruments engines and devices for robotic system development.
- Developed an automatic transporter robot capable of navigating environmental obstacles using color and distance-based EV3 sensors.
- Served as team lead for troubleshooting, communication, and project execution.

Teaching Assistant | Department of Electrical Engineering and Informatics, Universitas Negeri Malang

January 2023 – June 2023

- Guided students in understanding algorithm concepts and their implementation in C++ and Python.
- Provided feedback and evaluation for programming assignments and practical work.
- Assisted students in solving technical issues during laboratory sessions.

Education

Universitas Negeri Malang
